

KENNETH J. ROTHMAN

Dr. Rothman is Vice President for Epidemiology Research at RTI Health Solutions, a non-profit research consulting company based in North Carolina. He is also a Professor in the Department of Epidemiology at the Boston University School of Public Health and in the Department of Medicine at Boston University School of Medicine. His main career interest has been the development and teaching of the concepts and methods of epidemiologic research. He has authored or co-authored more than 200 peer-reviewed scholarly publications. His research has spanned a wide range of health problems, including cancer, cardiovascular disease, neurologic disease, birth defects, injuries, environmental exposures and drug epidemiology. He has regularly taught intensive courses on epidemiologic research principles in the US and abroad. He has also dedicated a large proportion of his professional effort to editorial activities and publishing: he was the founding editor of the journal *Epidemiology*, and has served as Assistant Editor of the *American Journal of Public Health*, Editor of the *American Journal of Epidemiology*, a member of the Editorial Board of the *New England Journal of Medicine* and the International Advisory Board of the *Lancet*. He is a Past President of the Society for Epidemiologic Research, an Honorary Fellow of the American College of Epidemiology, Fellow and member of the Board of Directors of the International Society for Pharmacoepidemiology. In 1997 he received the Will Solimene Award for Excellence from the American Medical Writers Association, and in 2000 the Abraham Lilienfeld Teaching Award from the American Public Health Association. He has written two epidemiologic textbooks, *Modern Epidemiology*, first published in 1986 by Little, Brown and Co. which is a comprehensive and widely used advanced text of epidemiologic methods, and *Epidemiology – An Introduction*, an introductory text published in 2002 by Oxford University Press.
