

**Eighth International Conference on
New Diamond Science and Technology
22-26 July 2001**

SPONSORSHIP OPPORTUNITY

Australia will be hosting the 8th International Conference On New Diamond Science and Technology ICNDST-8, from Monday 22 July to Friday 26 July 2002. The conference will bring together scientists and others involved with diamond and related materials technologies from around Australia and throughout the world.

The conference will provide an important platform for reporting advances made in understanding the growth, characterization and potential novel uses of diamond in a wide variety of environments and applications. The event is to be held in the University of Melbourne and will include many prominent international speakers. Please find enclosed a flier describing the conference including a list of some of these speakers. More details are available on the conference website: www.conferences.unimelb.edu.au/icndst-8

We would like to invite your organization to sponsor the conferences and ensure its success. With over 150 delegates expected to attend, you will have a unique opportunity to promote your business to an audience that will have a genuine interest in what you want to say and/or sell. Diamond researchers are heavy users of analytical and processing equipment and are always on the lookout for new products and approaches.

The attached document describes the sponsorship packages available. We ask that you review them and consider becoming a sponsor of this important international conference. Although we have offered these as packages, we would be pleased to negotiate the details to suit your company's requirements. It would greatly help our conference planning if you could indicate your level of support before Monday, 1 April 2002 to Ms Bronwen Hewitt, Conference Manager, University of Melbourne.

We look forward to hearing from you.

Yours sincerely

Professor Steven Praver
